

# Mendeleev 2019

XI International Conference on Chemistry  
for Young Scientists

September 9-13, Saint Petersburg, Russia

**Mendeleev 2019** will give young chemists (below the age of 35 years) an opportunity to meet scientists and present their research from various fields of chemistry:

- Advanced nanochemistry and nanomaterials
- Polymer science: the next generation
- New synthetic methodologies in organic and biomedical chemistry
- Computer modeling and cheminformatics
- Cost-effective analytical methods

**International conference on chemistry “Mendeleev”** at Saint Petersburg State University (SPbU) attracts more than 600 participants including world-leading scientists from the USA, Germany, Italy, France, UK, and Russia.

Year 2019 has been proclaimed the "International Year of the Periodic Table of Chemical Elements" (IYPT2019) and "Mendeleev-2019" is dedicated to the 150<sup>th</sup> anniversary of Mendeleev's Periodic table discovery.

It was in Mendeleev's apartment at the main building of the SPbU, where he had been working for more than 30 years, that Mendeleev formulated the Periodic Law, and created the periodic system of elements. **You are encouraged to visit the Memorial Apartment Museum of Dmitri Mendeleev at SPbU.**

Join us in our celebrations and discover the beauty of Saint Petersburg - the cultural capital of Russia, as well as one of the most beautiful cities in the world. **Book a free guided tour on the website [www.mendeleev.spbu.ru](http://www.mendeleev.spbu.ru).**

**Deadline for registration:** April 15, 2019.

**Early bird registration fee payment deadline:** April 15, 2019 (140 EUR).

**Deadline for abstracts:** June 15, 2019.

The working language of the Conference is **English**.

Simultaneous translation will not be provided.
