

**International Summer Camp for S & T Innovation  
Beijing University of Chemical Technology  
2019**

## Welcome to Beijing University of Chemical Technology!

Beijing University of Chemical Technology (BUCT) is affiliated to the Ministry of Education. As one of China's key universities of higher learning, BUCT has developed from an institution of technological specialties into a comprehensive university. Science and Engineering have been retained as the core disciplines with the addition of management, economics, law, arts, education, philosophy and medicine in order to create a comprehensive portfolio.

By fully exerting its academic strengths in carrying out the government's strategy of reviving China through science and education, BUCT is striving to become a multidisciplinary research university while retaining the merits of its original foundations. Our goal is to be one of the leading universities in China, as well as an influential university worldwide.

We are advancing our tradition of excellence in education through high quality programs in teaching, research, and service to society.

A handwritten signature in black ink, appearing to read 'Tan Tianwei', written in a cursive style.

**Professor TAN Tianwei**  
**President**  
**Beijing University of Chemical Technology**

With our eye on the future, we are successfully responding to the new challenges of a global, interdependent, multicultural, and technologically advanced society.

All the teachers and students of BUCT will continue carrying out the university motto "To be ambitious, virtuous, profoundly learned and to explore the magic world of chemical technology and to serve the people" and keeping to its spirit of "To be united, diligent, practical, learned and innovative" so as to make every endeavor to develop BUCT into an internationally influential high-level multidisciplinary research university and one of the most distinguished universities in China.

I invite you all to attend International Summer Camp for S & T Innovation and get to know China and BUCT through this opportunity. Welcome you to join our university or experience the excellence that BUCT offers by establishing a partnership with us. I look forward to the opportunity to meet and speak with you personally in the near future. Again, welcome!

# Introduction of the Program

## I. Program Advantages

- ◆ Stimulating the Potential of Innovation & Creativity
- ◆ Improving Scientific Literacy and Humanistic Literacy
- ◆ Expanding International Vision& Experience Multiculturalism
- ◆ Improving Team Spirit and Practical Abilities
- ◆ Obtaining Scholarship Opportunities

## II. Time and Venue

July 8<sup>th</sup> –July 19<sup>th</sup> ,2019

Beijing University of Chemical Technology

## III. Program Language

English

## IV. Potetial Candidates

Both undergraduate and graduates are eligible.

Faculty are welcome to be the students team leader (Research cooperation chance and agenda will be arranged in personalization).

Excellent high school students over 18 years old from partner high school are welcome. Faculty team leader assigned by the school are required.

## V. Program Scale

International Summer Camp for S & T Innovation is expected to enroll around120 international students from the world.

## VI.Activities

### S&T Innovation Lectures given by professors and experts

- Development Situation and Trends of Advanced Materials Development Situation
- Development Situation and Trends of New Energy and Renewable Energy
- Development Situation and Trends of Green Chemistry
- Development Situation and Trends of China Economics and Industry

### Chinese Culture Experience Courses

- China S&T History
- China Architecture
- Chinese Food

- Calligraphy
- **Companies/Enterprises Visiting**
- **Famous Sightseeing Tour**
- Great Wall
- Tiananmen Square & Forbidden City
- Temple of Heaven

## **VII. Credits and Certification**

Three Credits and Participating Certification will be award to the participants

## **VIII. Accommodation & Cost**

- ◆ Accommodation in BUCT: International Students Dorm for Free.
- ◆ Tuition/Training fee: Free
- ◆ Company visiting/Sightseeing Tour: Free
- ◆ International Round-way Flights Ticket: Self-Pay by participants.
- ◆ Meal: Self-Pay (Food in BUCT Dining Room is available and about 2 US Dollars per meal)

## **IX. Application & Enrolment**

Application Deadline: 10th May, 2019

Application Procedure:

- ◆ Fill in the application form (attached)
- ◆ Sent the application form to the email address by participants or by the related officers of participant's universities.
- ◆ BUCT will review the application form of the students, and will send the acceptance letter to the qualified candidates.
